SANTA YNEZ COMMUNITY SERVICES DISTRICT

The mission of the District is to respond to the needs of its citizens and represent them, as a group, at local and regional levels in solving local problems affecting the common good.

To fulfill that mission, the Board of Directors of the Santa Ynez Community Services District is committed to the following legislative policy:

- ➤ To respond to community needs within the District's sphere of influence (said sphere being subject to future revision and amendment pursuant to Government Code) to the full extent of the District's authority and the purposes for which it was formed;
- > To support orderly growth and development which is essential to the social, fiscal and economic well-being of the community as an integral part of the Santa Ynez Valley and which responds sensitively to environmental concerns and available natural resources; and
- > To set priorities for community services by weighing actual and future needs against all available financial resources and to manage public funds in a manner both fiscally sound and conservative.

The Board further finds that the common good is best served when all policies are based upon the most complete information that can be assembled, the counsel of reliable, independent experts is sought, and the District is administered fairly, objectively and without deference to special or self-interests.

WHAT IS THE SANTA YNEZ COMMUNITY SERVICES DISTRICT?

The Santa Ynez Community Services District was formed in 1971 by citizens in the area for the purpose of obtaining and providing community sewage disposal services in the Santa Ynez area (approximately one square mile). In January 1974 State and County health departments determined a health hazard existed due to septic systems, and a building moratorium was put on the area. The original system was built to address this problem and was completed in 1981. Subsequent to this there have been extensions to the mainline to make public sewer available to residents who have come to the District requesting service.

The Santa Ynez Community Services District is an independent special district created under section 61000, Title 6, Division 2 of the Community Services District Law of the State of California. The District is governed by a Board of Directors consisting of five elected members serving four-year terms. Board members must reside in the District. As a local government, we are accessible to our customers and as an enterprise district we charge only those who receive the service.

The SYCSD owns 0.30 MGD capacity in the City of Solvang 1.5 MGD wastewater treatment plant. The SYCSD collection system has 693 connections, 372 manholes, 7.4 miles of 8-inch VCP gravity line, 4,415 feet of force main, 4.25 miles of 12-inch VCP gravity line and 2.1 miles of 15 inch VCP gravity line and one lift station. The SYCSD's main trunk line carries an average of 140,000 gpd to Solvang's treatment plant.

The Chumash Tribe owns 0.088 MGD of the SYCSD's capacity. The Chumash Tribe has constructed a wastewater treatment plant with a capacity of 400,000 gallons per day (gpd), which was upgraded in 2015. This plant serves the Casino, Hotel, administration buildings, and approximately 350 residents on the reservation. Treatment includes Biological Nutrient Removal (BNR), Membrane Bioreactor (MBR). The system utilizes to different disposal methods which are NPDES into the Zanja Cota Creek and by Title 22 for reuse and irrigation purposes for unrestricted uses on Tribal and State of California lands. The SYCSD has been under contract with the Chumash since 1983 to maintain the Chumash collection system and wastewater treatment plant. The SYCSD Board of Directors believes it is in the best interest of the community to have a governmental agency manage the Chumash wastewater treatment plant. The Tribe's collection system has 1.8 miles of 8-inch VCP gravity sewer, 33 manholes, .9 miles of 4-inch sewer force main and two lift stations. In March of 2019, the District under contract, began operating the City of Buellton's Wastewater Treatment Plant.

#### Definitions:

DFUs: The number of drainage fixture units for each type of appliance, appurtenance or fixture, as set forth in the then current California Plumbing Code. Base Charge: The then current capacity fee for a single family residence.

Strength Factor: The Strength Factor of wastewater, as defined under Section 820(C) and as determined under Section 821 of the District's Sewer Service Code Unclassified User: Any user group or classification not shown above.

[1] For any Unclassified User, the Capacity Charge for the first 20 DFUs shall be calculated as follows.

Capacity Fee = Base Charge x Strength Factor

An Additional Fixture Charge shall be applicable to any Unclassified User which has more than 20 DFUs, calculated as follows.

Additional Fixture Charge = (number of DFUs in excess of 20 divided by 20) x Base Charge x Strength Factor

[2] For any Exterior Accessory Dwelling Unit, the Capacity Charge for the first 15 DFUs shall be calculated as follows.

Capacity Fee = Base Charge x .74

An Additional Fixture Charge shall be applicable to any Exterior Accessory Dwelling Unit which has more than 15 DFUs, calculated as follows. Additional Fixture Charge = (number of DFUs in excess of 15 divided by 20) x Base Charge

^{*}The capacity fees set forth in the table above will be adjusted effective as of the first day of July of each year, commencing July 1, 2018, by an amount equal to the percentage change in the Engineering News Record Construction Cost Index National Average published for the immediately preceding April as compared to such index for April of the previous year.

#### **RESOLUTION NO. 15-01**

## RESOLUTION OF THE BOARD OF DIRECTORS OF THE SANTA YNEZ COMMUNITY SERVICES DISTRICT REGARDING ENTERPRISE FUND, OPERATING RESERVE, FUND/REPLACE/EXPANSION RESERVE, FUTURE CAPACITY RESERVE AND STREET LIGHT RESERVE

WHEREAS, on June 15, 2011, the Board of Directors of the Santa Ynez Community Services District (the "District") adopted Resolution No. 11-04 setting forth certain findings relating to the maintenance of the District's Enterprise Fund, Operating Reserve, Repair/Replacement Reserve, Building Reserve, Future Capacity Reserve and Street Light Reserve; and

WHEREAS, the District's Board of Directors desires to replace the findings set forth in Resolution No. 11-04 to address the funding of each reserve category.

NOW, THEREFORE, the Board of Directors of the District does hereby adopt the following findings to supersede and replace the findings set forth in Resolution No. 11-04 and fund the Reserve accounts in the order that they are listed:

- 1. The Enterprise Fund is established to provide for the receipt of revenues and the payment of expenses. All revenues are received from sewer service charges, property taxes, interest, inspection fees, sewer benefit fees, and miscellaneous income. The expenses to be paid from the Enterprise Fund are costs associated with the operation, maintenance and repair of the sewage collection, treatment and disposal facilities owned or utilized by the District and to fund District reserves or other reasonable expenses allowed by statute.
- 2. The Operating Reserve is established to fund six months of operating expenses. The revenues are received from operating surplus of the Enterprise Fund. If the balance exceeds eight months of operating budgeted expense, the difference will be transferred to the Fund/Replace/Expansion Reserve. The adoption of the annual budget shall be evidence of the District's determination that the funds contained in the Operating Reserve do not exceed an amount which is necessary to fulfill the purposes for which the Operating Reserve has been established and may enable the District to avoid adverse financial impacts in the future.
- 3. The Fund/Replace/Expansion Reserve is established to fund the enhancement, replacement and/or expansion of the District's owned/non-owned facilities. The revenues are received from the Enterprise Fund after the Operating Reserve and the Building Reserve have received adequate funding and from annexation fees. Contributions to the Fund/Replace/Expansion Reserve will be in-lieu of funding depreciation. The Board has established a sub-category for the Building Reserve, and the Building Reserve should be maintained at a minimum \$140,000.00.
- 4. The Future Capacity Reserve is established to fund the purchase of capacity in the City of Solvang's wastewater treatment plant. The revenues are received from the Enterprise Fund and connection fees. A balance will be held in the reserve to purchase 10%, currently 30,000 gpd of additional capacity in the Solvang wastewater treatment plant. The price per gallon of additional capacity is the current book value of plant divided by total plant capacity (1.5 million gpd). The current price per gallon times the 10% of additional capacity in gallons equals the funding needed in reserve. Within 180 days after

the end of the fiscal year, the District shall make available to the public information regarding the balance in the Future Capacity Reserve as required by Government Code Section 66013(d), as said section may be amended from time to time.

- 5. The Street Light Reserve is established to fund future street light projects. The revenues are received from the portion of the District's property taxes allocated to street lights after payment of any street light expense.
- 6. The Board of Directors shall review the Reserve Policy and the level of reserves in each fund on an annual basis.
- 7. Resolution No. 11-04 is hereby superseded and replaced by this Resolution 15-01.

PASSED AND ADOPTED this 21st day of January, 2015, by the following vote of the Board of Directors of the Santa Ynez Community Services District:
